## TECHNICAL INFORMATION

---

DESIGNER: MAURO LIPPARINI

Cava is a coffee table program designed to create and express geometric compositions of horizontal and vertical planes and all the figures, in spatial balance, contribute to its structural role. Made entirely of transparent fume' and bronze glass, the compositions bring to life a 3D stratification with optical games of great depth. Cava coffee tables are elegant and functional furnishings that interact harmoniously with the other elements created by the designer for the living system. They are made of glass, in various shapes and sizes. The compartments below the top can be used as small bookcases. Accent table with metal structure and glass top is ideal to be placed next to the sofa as a useful table top for the living room.

### PRODUCT DETAILS

- Central tables available in two sizes and in various color mix.
- Central tables made entirely of tempered extra-clear glass or transparent bronze and fume with base and top in etched glass and/or back-lacquered in pre-defined chromatic mix.
- The accent version has a steel frame in matt coffee painted with etched float glass top and back lacquered or also available in mirrored glass in various colors.
- All the glass parts are glued using UV bonding technique that ensure maximum efficiency and strength and high transparency.
